COMPENDIUM OF SELECT INVESTMENT OPPORTUNITIES

With sector incentives & business associations

InvesTT Trinidad and Tobago Ltd. (InvesTT) is the Investment Promotion Agency of Trinidad and Tobago

INVESTMENT OPPORTUNITIES

LIGHT EMITTING DIODE (LED)

OPPORTUNITY

CLEANTECH

A global trend in lighting has been the use of LED lights as a replacement for incandescent and compact fluorescent bulbs in residential, commercial, industrial and sporting applications. LEDs consume up to 10 times less power than incandescent lights and up to 2 times less power compared to fluorescent lamps and they have a life span of 50,000 hours (approximately 15 years) or more.

Trinidad and Tobago offers a suitable location to manufacture part or all of the components of LED bulbs leveraging on several key factors including-:

- Cheap Energy Costs
- Available Raw Materials
- Skilled Labour Resources
- Governmental Support

China currently dominates the global LED market, however Trinidad and Tobago offers an opportunity for the location of an LED manufacturing operation. Individual or integrated operations for making the LED Package and/or the Bulk Materials may be established with the advantage of close proximity to major markets such as the United States and Central and South America.

FILM STUDIO

OPPORTUNITY

CREATIVE INDUSTRY

Trinidad and Tobago's unique location and thriving culture has led to the creation of a nascent Creative Industry.

Within the motion picture segment, FilmTT the state entity responsible for film production has estimated that T&T currently has the facilities and professional skills pool to support the production of movies with budgets of up to US\$5 million, as well as the ability to sustain three (3) major features and five (5) smaller documentary productions a year.

An investor can engage in the design, build-out, and operation of a facility within Trinidad and Tobago at the investor's choice of one of three recommended sites. The facility can operate as a film studio serving the motion picture (films), TV and Animation segments and derive revenue streams from (but not limited to), the following customers:

- Production companies that utilize studio facilities, e.g. revenue from usage and/ or rental of sound stages, production offices, construction mills, storage facilities and lighting equipment to film and television producers.
- Television Studios
- Film Distributors

[Read more](#)

DOWNSTREAM ALUMINIUM

IDEAL FIRST MOVER ADVANTAGE

There exists an ideal first mover advantage for investors to capitalize on as the scrap metal industry currently exports all scrap metal to the international market, mainly the United Arab Emirates (UAE), and there is no real concentration on recycling aluminum waste in the country.

A survey of scrap dealers indicated that the country's annual production of aluminum scrap is 6,240 tonnes, collected through twenty six (26) companies across the country.

Regionally aluminum can be sourced with current estimates of 35-50 tonnes monthly possible due to a ban on scrap exports by the Governments of Jamaica, Guyana and the Bahamas. These Governments may reconsider exports of scrap to niche markets.

OPPORTUNITY

- Sourcing aluminium scrap locally and regionally to produce aluminium ingots and billets in Trinidad and Tobago for local, regional and international sale.
- Castings and manufacturing using ingots and billets manufactured locally.

[Read more](#)

BATTERY MANUFACTURING

Trinidad and Tobago possesses the strategic advantages of possessing a highly qualified labour force in the energy and manufacturing sectors, low electricity costs and low labour costs. These advantages make it an ideal place for investors to benefit from setting up an OEM manufacturing operation, scaled to provide battery modules and/or packs to major renewable energy and energy storage firms.

OPPORTUNITY

Trinidad and Tobago possesses the manufacturing capabilities, business environment and logistical advantages to be a regional hub for OEM battery manufacturing and assembly within the Lithium-ion segment. There is an opportunity for an investor to design, build and operate a battery manufacturing and/or assembly plant in Trinidad and Tobago focusing on the pack and module production stage and where the majority of production will be exported internationally.

AGRO- PROCESSING

OPPORTUNITY

Agro-processing in Trinidad & Tobago offers lucrative, niche investment opportunities. This is particularly so for manufacturers using unique, indigenous agro-products. The industry is infused with potential for innovation and development of specialty items for local, regional and international markets.

CHOCOLATE MANUFACTURING

Award-winning Fine Flavour Cocoa

T&T is one of 8 exclusive producers of fine/flavour cocoa in the world. (The International Cocoa Agreement, 1993).

- Fine/flavour cocoa accounts for just 5% of world production.
- Salon du Chocolat Award – La Reunion and San Juan are the only estates in the Caribbean to have won this award.
- Our unique Trinidad select hybrids of Criollo, Trinitario, and Forastero fetch a premium price on the world market.
- T&T's cocoa is in high demand worldwide by renowned chocolatiers.
- Home to one of the world's longest continuous cocoa variety breeding programmes, initiated in 1930.

Trinidad and Tobago is home to the award-winning fine/flavour cocoa which creates the potential for lucrative investments targeting high end chocolate markets. The opportunity exists for the development of bespoke chocolate and other cocoa-based manufacturing plants, using locally grown beans.

OPPORTUNITY

PEPPER PROCESSING:

T&T's Moruga Scorpion pepper was rated the hottest naturally growing pepper in the world at over 2m Scoville units (SHUs) by the New Mexico State University's Chile Pepper Institute in February 2012.

- Each pepper contains as much capsaicin as 25ml of police-grade pepper spray.
- The Trinidad Scorpion Butch T pepper (>1.5m SHUs) ranks just below the Moruga Scorpion pepper.
- Other varieties of hot pepper in T&T include the 7-Pot (800,000-1m SHUs), the Douglah and Habanero (>500,000 SHUs).

TOURISM OPPORTUNITY

BLUE HAVEN HOTEL, TOBAGO

An award winning property ready for immediate sale US\$ 12.8 million (neg.)

- A stylish boutique hotel with 55 rooms and suites located just 5 minutes from the capital Scarborough in Tobago.
- An idyllic location on a majestic cliff, surrounded by the azure blue sea.
- Situated on a 7.5 acres prime oceanfront site and offers 55 units in total which include 10 suites and 2 ocean-front villas, all with private balconies and breathtaking ocean views.
- An historical landmark preferred by film-makers and royalties in the 1950s

Investment Required:

Ready for immediate sale at US\$12.8M

Open to negotiation with owner

Type of Investment:

Investor with the ability to access financing independently

OPPORTUNITY

ARNOS VALE ESTATE, TOBAGO

Nestled against the gentle slopes of a 410 acre tropical paradise teeming with rare and beautiful birds. The Arnos Vale itself is set into the hillside overlooking the Caribbean Sea. The beautifully landscaped gardens slope gently down to a secluded, sandy beach. Just off-shore a pristine coral reef boasts some of the best snorkeling on the island. Formally a thriving sugar plantation, these days Arnos Vale is a tranquil retreat from the pressures of modern-day living.

Like Tobago itself, this elegant place of quiet charm and unspoiled natural wonder – a place where time slows down and the only responsibility you have is to sit back and relax.

Also located on the Estate is the Arnos Vale Waterwheel Park situated on approx. 6 acres of land more or less.

Investment Required:

Arnos Vale Hotel site with beach front on average 20 acres: US\$20 million

Arnos Vale Estate on average 100 acres more or less: US\$30 million

Arnos Vale Waterwheel site on average 20 acres: US\$10 million

Type of Investment:

Investor with the ability to access financing independently

BUSINESS PROCESS OUTSOURCING (BPO)

OPPORTUNITY

ESTABLISHMENT OF A LARGE BPO FIRM/ENGLISH VOICE SERVICES

Investment opportunities exist in Trinidad and Tobago for BPO companies with a large English Voice Service focus seeking to provide high quality customer interaction services to clients, from a nearshore location.

Trinidad and Tobago has a developing BPO industry, which currently consists of a healthy mix of global service providers and domestic players.

Many of these BPO's primarily serve the Caribbean, North and Latin America from a Trinidad and Tobago base. The ability to serve local and established markets is derived from our thriving education system and our cultural affinity with the region.

Many of Trinidad and Tobago's Canadian based Banks (Scotiabank, RBC, Republic Bank) have also created shared services centres in Trinidad and Tobago in order to service the Caribbean Region.

GOVERNMENT INCENTIVES FOR INVESTORS

The Government of the Republic of Trinidad & Tobago (GORTT) encourages foreign direct investment in almost all sectors, with specific focus on the non-energy targeted sectors. Generally speaking, there are no restrictions or disincentives to investment.

WHY T&T FOR MANUFACTURING

Manufacturing Incentives

Fiscal Incentives are benefits granted to large scale manufacturers or processing enterprises under the provisions of the Fiscal Incentives Act, Chapter 85:01 (as amended).

Other incentives include:

- Import Duty Concessions
- Approved Small Company Status
- Free Trade Zones
- Allowances to the manufacturing sector
- Tax exemptions for the housing sector

WHY T&T FOR CREATIVE INDUSTRIES

Creative Industries Incentives

Production Expenditure Rebate Programme

- Tax Deduction for Sponsorship of Audio, Visual and VIDEO Production
- Tax Deduction for artistic works
- Tax Deduction for Production Company
- Customs Duty Exemption

WHY T&T FOR TOURISM

Tourism Incentives

The Tourism Development Act (TDA), 2000 (as amended) provides for benefits to be granted to the owners/operators of various types of tourism projects, once these projects have the potential of contributing substantially to the growth of the tourism sector. The benefits that are offered include

- Tax exemptions on profits not exceeding 7 years.
- A range of tax exemptions on activities related to the tourism industry.
- Specific Customs and Excise Duty exemptions
- Generally there are no restrictions or disincentives to investment. Foreign ownership of companies is permitted and welcomed under the Foreign Investment Act (1990).

INCENTIVES ACROSS SECTORS

Research and Development Facility (RDF):

- (i) for a single company project - TT \$500,000;
- (ii) for a business alliance of two or more companies - TT \$1,000,000; and
- (iii) for patent registration - TT \$300,000.

Co-Financing. companies can enjoy reimbursement, through exportTT, for a portion of the costs associated with entry into selected export markets. A company shall receive financial support on pre-approved investments, purchases, costs or expenses.

Importation of Goods for temporary use. The Comptroller may give permission to any person to import any goods without payment of duty thereon, upon being satisfied that the goods are so imported for temporary use only. Special conditions are applicable. Chapter 78:01 Customs Act.

FREE ZONES INCENTIVE

The Free Trade Zones programme is designed to encourage local and foreign investment in export-driven projects that create jobs, develop skills and create external markets for products. The Programme has been seen as an instrument to attract non-energy based projects to Trinidad and Tobago and is administered under the Free Zones Act, 19 of 1988 (as amended).

Free Zone areas are designated by order of the Minister of Trade & Industry on the recommendations of the Trinidad and Tobago Free Zones Company Limited (TTFZ). Sales into the customs territory are treated as extra regional imports.

A free zone can refer to both a cluster space set aside for more than one operator, or to the physical space occupied by a company that has qualified for free zone status. There is no limit on free zone certification. There are 16 free zones now operating presently in Trinidad and Tobago which convey the below benefits.

- Import or export licenses
- No foreign exchange controls
- No Land, building, improvements or machinery tax
- 100% ownership of locally-registered private companies.
- Full repatriation of funds
- Exemption from Value Added Tax
- Exemption from corporation taxes
- Exemption from customs duties on goods, parts and raw materials
- Exemption from withholding taxes

Eligibility Criteria

Generally, manufacturers who export at least 80% of their products extra regionally and companies that export at least 50% of their services extra regionally may qualify for Free Zone certification.

The following criteria applies:

- Company must be incorporated or registered in Trinidad and Tobago
- Investment of manufacturing operations cannot exceed US\$50Mn
- A business plan and all relevant documents appropriate to the circumstances of the particular project must be submitted
- Primary petroleum, natural gas and petrochemical projects are not eligible for free zone status.
